GENERAL REQUIREMENTS FOR AN APPLICATION FOR THE AUTHORISATION TO  
CONDUCT A COMPUTERISED BETTING SYSTEM

BETTING CONTROL REGULATIONS  
Regulations 37

---

**General**

Regulation 37 of the *Betting Control Regulations 1978* makes provision for the recording of all betting transactions. This is conducted by recording the details of a bet onto a betting ticket for issue to the bettor, and duplicating the betting transaction into a bookmaker's ledger. However, with the progress of technology, these transactions can now be undertaken with the assistance of a computer.

Regulation 37(5) enables a bookmaker to lodge an application with the Gaming and Wagering Commission of Western Australia to seek approval to use a computerised betting system to facilitate the recording of betting transactions. Prior to the Commission granting approval for the use of a computerised betting system, it must be satisfied that system you intend operating has been audited by an Inspector of the Commission and meets the required output demands.

Please note that this is not an application for a bookmaker's licence.

**Application Requirements**

- You must be eligible to/or hold a bookmaker's licence. If you do not currently hold a bookmaker's licence you are required to complete a separate application form for the grant of a bookmaker's licence from the Gaming and Wagering Commission.
- A fee (please refer to the fee schedule) must accompany this application form. Cheques are to be made payable to the Gaming and Wagering Commission.

2. An approved computerised betting system shall not be modified or changed unless consent for the specific modification of change is obtained from the Commission.

4. Betting tickets produced by the computerised betting system must be in a form, size and colour approved by the Commission.
